

Breakout 1

How to support local communities to become resilient?

Ideas

Human zoo & showcase:

More awareness

Listening to local communities & sharing how others are surviving the crisis

Specifically supporting local communities

(E.g. selling local handicrafts)

Crowdfunding – MODERATOR_BREAKOUT_2

Diversification

Not to be depending on tourism is key

Raise awareness

Tourism can be a big risk as well

Favorites

Tourism tax

Not only for sustainable tourists - every tourism has to pay

to be used as an income support fund – ANONYM

Additional income

If possible tourism should be seen as a additional income

Diversification

Communities should be assisted with developing different (tourism) products, also offering packages for the local market, agricultural products that could be sold to tourists later etc.

Participation is key

(Tour operator perspective): ensure that local communities can participate in decision-making (from day 1 on!)
